

Lily

"Exploring ocean is fun!"

- 6-year-old
- Kindergarten student

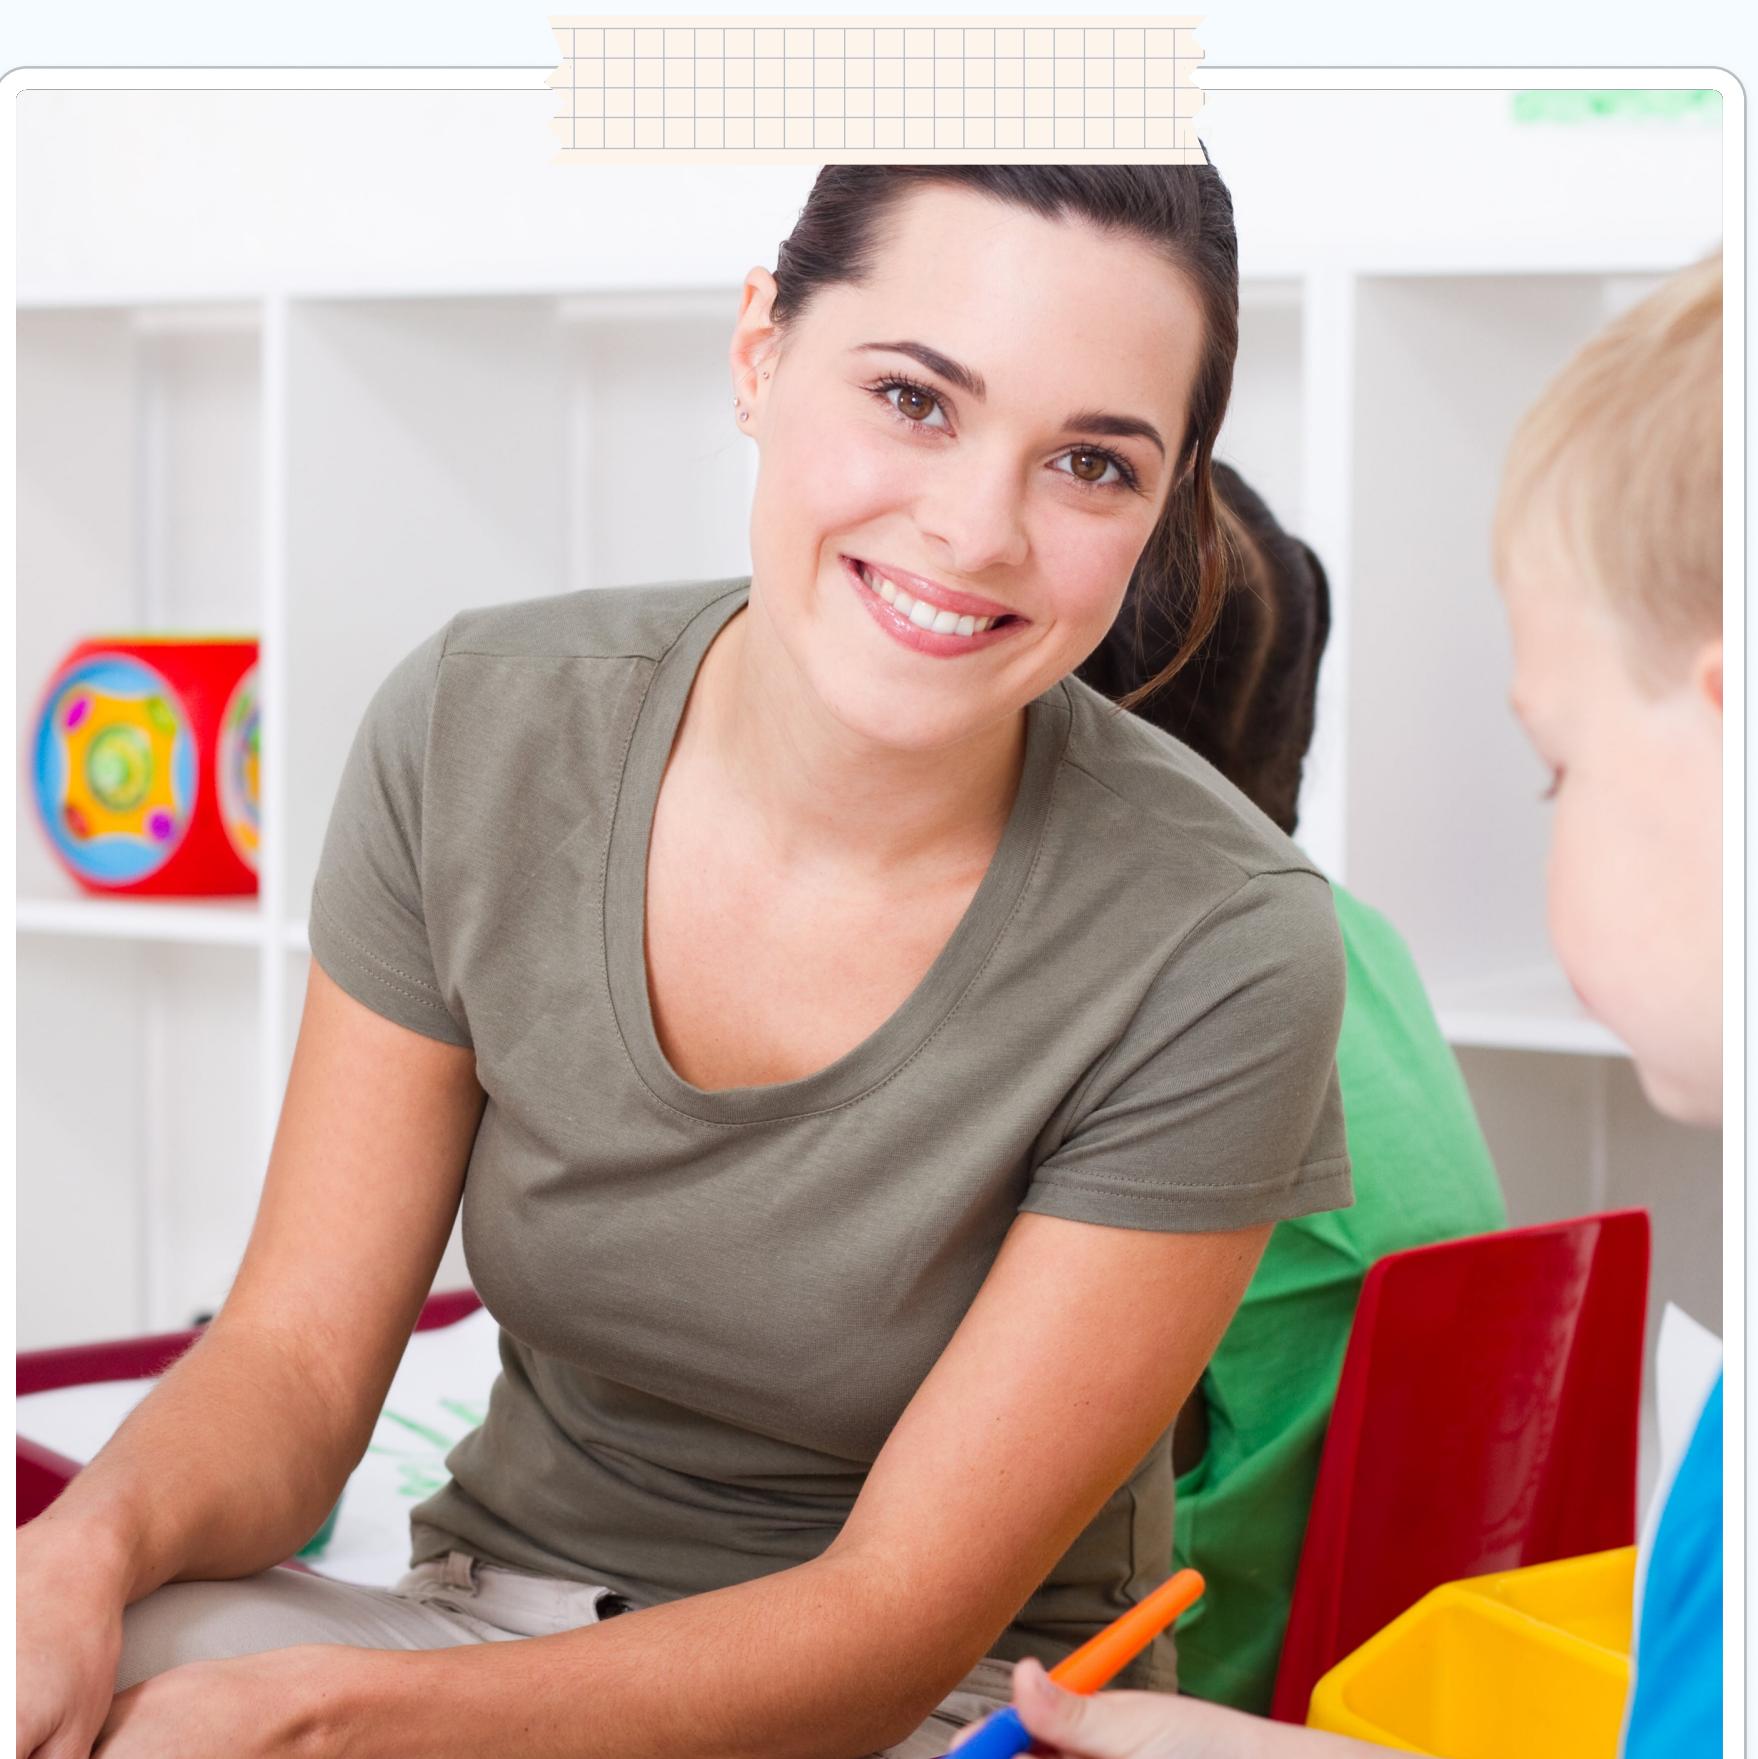

Bio

Lily is a curious and imaginative 6-year-old girl who loves to explore and learn about the world around her. She is passionate about animals, especially sea creatures, and enjoys watching educational shows and reading books about the ocean.

Goals

1. Learn about the issue of ocean pollution and its impact on marine animals.
2. Engage in a fun and interactive activity that raises awareness about the importance of ocean conservation.

Personality

Emily

"Play, learn and grow together!"

- 36-year-old
- Kindergarten teacher

Bio

Ms. Emily is a dedicated and passionate kindergarten teacher with several years of experience in early childhood education. She is enthusiastic about teaching her students about the environment and fostering a sense of environmental responsibility from a young age.

Goals

1. Introduce her students to the concept of ocean pollution and its impact on the environment.
2. Engage her students in interactive and fun learning experiences that encourage their curiosity and creativity.

Personality
